

The diagram illustrates an optical system 100. At the bottom left, a light source 101 emits light through a series of optical components: a mirror 102, a lens 103, and a mirror 104. The light then passes through a series of lenses 105, 106, and 107, and is reflected by a mirror 108. The light path continues through a series of lenses 201, 202, 203, 204, 205, 206, and 207, and is reflected by a mirror 208. The light then passes through a series of lenses 209, 210, and 211, and is reflected by a mirror 212. The light path ends at a display panel 300. The system is labeled 100 at the bottom left. Other components are labeled 101, 102, 103, 104, 105, 106, 107, 108, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, and 300.
